

15th February 2017

weatherXchange Limited welcomes SRG Corporate as a Regional Specialist Broker-Advisor on the weatherXchange® Platform

February 2017, HARPENDEN, Herts, UK

weatherXchange®, a platform which helps companies access index-based weather risk protection and which provides post-trade valuation and settlement services, is pleased to announce its cooperation with SRG Corporate, one of Australia's leading corporate and small business insurance broking firms. SRG Corporate will be listed as a Regional Specialist for Australia covering agribusiness, construction, energy and mining.

Stephen Doherty, Chairman, said, "We are delighted to work with SRG which has a national presence in Australia and has a great deal of experience in weather risk management for a range of industry sectors. The weatherXchange Platform delivers the weather data necessary for SRG to be able to tailor weather protection for their clients. weatherXchange also provides the tools required to easily access prices from multiple Protection Sellers and then to settle the transaction. As part of our philosophy of making weather risk mitigation products more accessible to businesses across the world, weatherXchange looks to partner with qualified specialists in all geographies and sectors. weatherXchange's role is to provide these Broker-Advisors the quality weather data and tools they need to help their clients by advising them on how to reduce their weather risk and then placing that risk in the most cost effective way possible. We are delighted to be working with SRG in this way."

Norman Trethewey, Account Director for Group Business Development, said, "SRG is extremely pleased to use the weatherXchange platform to refine the structure of protection we devise for various clients. We then use the weatherXchange Platform to secure the best possible protection to de-risk the effect of weather on a client's operations and to transfer the risk to a range of highly-rated Protection Sellers. The platform also serves as a reference point for our clients to monitor the performance of the contract throughout its tenure and have any claims settled expediently and objectively."

About weatherXchange®

weatherXchange Limited is part of the Speedwell Weather group of companies which have been involved in the index-based weather risk market since its earliest days in 1999. weatherXchange® is an independent platform which provides free access to thousands of quality weather data sets worldwide and a user-friendly tool to simplify the design of weather protection contracts. weatherXchange links Hedgers, Broker-Advisors and Protection Sellers thereby helping businesses with weather risk to more easily access weather risk protection. The weatherXchange Platform also offers post-transaction services necessary to settle a transaction

and to monitor the performance of a hedge.
