weatherXchange® Lists Citadel Energy Investments Ltd. as a Protection Seller on the weatherXchange Platform

October 2019, CHARLESTON, SC, USA and HARPENDEN, UK

weatherXchange, the platform which helps companies access index-based weather protection, is pleased to announce its cooperation with Citadel Energy Investments Ltd., part of the Citadel organization.

Citadel Energy Investments Ltd. will join weatherXchange as a Protection Seller equipped to respond to price requests received via the weatherXchange Platform and provide weather risk protection directly or indirectly through an intermediate broker.

David Whitehead, Co-CEO said, “We are delighted to have Citadel Energy Investments Ltd. join weatherXchange as a Protection Seller. The addition of Citadel Energy Investments Ltd. to our platform is the latest milestone in the continued growth of the weather derivatives market and a reflection of growing demand for weather-focused risk management solutions among non-traditional Protection Sellers. As the market continues to grow, we expect weatherXchange to expand as a hub of market activity for Protection Sellers, Broker-Advisers, and Hedgers.”

Citadel Energy Investments Ltd. will join eleven other Protection Sellers providing weather risk coverage via the weatherXchange platform.

About weatherXchange

weatherXchange Limited is part of the [Speedwell Weather](#) group of companies which have been involved in the index-based weather risk market since its earliest days in 1999.

The weatherXchange Platform links Hedgers, Broker-Advisors and Protection Sellers thereby helping businesses with weather risk to more easily access climate risk protection.

weatherXchange provides free access to thousands of worldwide quality weather data sets and a user-friendly tool to simplify the design of weather protection contracts. These can then be sent at a click of a button to multiple Protection Sellers for pricing. The weatherXchange Platform also offers post-transaction services necessary to settle a transaction and to monitor the performance of a hedge.
